Summary

Highly motivated and detail-oriented Full Stack Developer with a solid foundation in web development. Completed a 7-month project-based MERN stack training, building full-stack applications with React, Node.js, Express, and MongoDB, including secure authentication, RESTful APIs, and responsive user interfaces. Eager to kickstart a career in software development and contribute to real-world projects.

Skills

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap, Redux, Context API, Shadcn/ui, Axios
Backend: Node.js, Express.js, Mongoose, REST APIs, JWT Authentication, Middleware, Multer
Database: MongoDB, MySQL
Tools & Platforms: Git & GitHub, Postman, Render, Vercel, Netlify, Figma, Shopify
Development Practices: API design, debugging, error handling, Agile collaboration

Training

Luminar Technolab, Kerala, India   **May 2025 – Dec 2025**
MERN Stack Development | Project-Based Training

- Built full-stack web applications using **React.js, Node.js, Express, and MongoDB**.
- Implemented **JWT-based authentication** and developed secure RESTful APIs.
- Designed backend logic following **MVC architecture** for scalability and maintainability.
- Created responsive and reusable UIs using **Tailwind CSS, Material UI, and Bootstrap**.
- Followed Agile-style project workflows and applied best development practices.

Projects

HomeServe - Home Services Platform
React.js, Node.js, Express.js, MongoDB, JWT, Multer   **GitHub**

- Developed a full-stack home services platform enabling users to book and manage services.
- Designed and implemented **20+ REST APIs** with JWT-based authentication and role-based access control.
- Integrated an **AI-powered customer support chatbot** to automate service-related queries.
- Built an interactive admin dashboard for monitoring services and user activity.

BookStore – Used Books E-commerce Platform
React.js, Node.js, Express.js, MongoDB, JWT, Stripe, Multer   **GitHub**

- Built a full-stack application for buying and selling used books with secure user authentication.
- Integrated **Stripe payment gateway** with server-side validation for secure transactions.
- Implemented admin approval workflows for managing listings and users.
- Handled file uploads using **Multer** and implemented full **CRUD operations** across the platform.

Resume Builder Web App
React, Material UI, Tailwind CSS   **GitHub**

- Developed a resume builder application with real-time form input and live preview functionality.
- Implemented PDF export for downloadable resumes.
- Focused on clean UI/UX using Material UI and Tailwind CSS.

Education

APJ Abdul Kalam Technological University, Kerala, India   **Aug 2023 – May 2025**
Master of Computer Applications (MCA)   *CGPA: 8.92 / 10.00*
